

The Optimal Brain Organization Teacher Training Workshop

*A teacher practicum with Paul E. Dennison, Ph.D.
Co-creator of Brain Gym® and the Educational Kinesiology Foundation*

Paul E. Dennison, Ph.D. is a professional educator, a pioneer in brain theory application, and a world authority on cognitive skills and reading achievement. He received his doctorate in education for his research on reading and cognitive development. His clinical studies in the USA on the causes and treatment of learning difficulties resulted in the development of the Educational Kinesiology and the Brain Gym® programs with his wife Gail Dennison. These programs are now used in more than 80 countries worldwide and translated into more than 50 languages.

January 22-24, 2010, Ventura, California

Course venue: 4517 Market Street, Suite 8, Ventura, CA 93003

9:00am-5:00pm on 23rd, 9:00am-1:00pm on the 24th

*To enroll in this course, please send the registration form below to course sponsor Paul Dennison at
P.O. Box 3396, Ventura, CA 930006-3396*

email: paul@heartsatplay.com

Phone: (805) 650-3654,

*Fee: \$550.00 (USD) when \$200.00 (USD) non-refundable deposit
is received by October 15, 2009, or \$650.00 (USD) after October 15, 2009.*

For La Quinta reservations please go to www.lq.com or call: (805) 658-6200

This experiential workshop qualifies Brain Gym Instructors* to teach the basic course in Optimal Brain Organization. The Brain Organization profile is invaluable to educators and children alike, as it indicates sensory and brain preferences and their implication for such activities as:

- Reading
- Math
- Writing
- Memory Access
- Motivation
- Talking on the phone
- Relating to people
- Sports performance

- Other life activities

The Brain Organization Profile provides a new understanding and appreciation of the child's own uniqueness and the special ways he functions in his world. It also demonstrates how learners change for better or worse under stress, to cope with the challenges in life.

The Edu-K processes you will learn in this course offer the opportunity to access all sensory channels in order to make use of all modalities, bringing positive, healthy, and integrated resources to new learning situations.

Qualify to teach the OBO Workshop to Brain Gym 101 graduates as they are learning to:

- Access Brain Organization Profiles of both children and adults
- Discover their own unique Profile for learning
- Awaken latent gifts and potentials
- Discover unique, dynamic, and innovative applications of brain research
- Give new meaning to "right-brained," "left-brained," ADD, and other misunderstood labels
- Understand familial patterns as well as the role of early learning experiences in determining Organization Profiles
- Identify and learn the importance of different Organization Profiles (including Uniform, Mixed, and One-Sided)
- Learn to interpret implications of Profile on learning style
- Learn to balance Brain Organization Profiles for greater ease in any learning situation
- Deepen their understanding of the three-dimensional brain
- Incorporate Organization Profile tools into the Edu-K balance process

Brain Gym® is a registered trademark of the Educational Kinesiology Foundation. For more information on the Brain Gym and Edu-K processes and for a list of licensed instructors and courses near you, please visit the Foundation online at www.braingym.org.

Requirements for teaching Optimal Brain Organization: must have taken BOP or OBO at least twice* with a certified instructor and be a licensed Brain Gym® Instructor. *One time may be after this Teacher Training if approved instructor and documented with the Foundation.
